January 6th 1930

Biancolo & Murray
30 Watts Street
New York City

Gentlemen:

Sometime ago we received from you several circulars describing steel lockers. Alterations in the building have necessitated much moving, and one of the circulars has gone astray. It displayed a steel storage cabinet at about thirty dollars. If you know the one I am referring to, will you please quote the price for it, delivered to us at this building?

Yours very truly,

Curator.
